2. To Invite Declarations of Interest.
3. Public Participation:

The Public Meeting with regard to the above Planning Application was vigorous and informative. Persons present numbered approximately 85-90. A number of those present spoke, against the proposed development, worried that the existing infrastructure, of Nether Heyford would not be suitable to support the increased pressure on existing services, roadways, or educational establishments. It was noted that this application had only minor differences, from the previous application made by Gladmans, and withdrawn by them prior to their appeal being heard. It was felt by some that this application was malicious, and the persistence of Gladmans was unwelcome and designed to wear down objections over time.

Cllr Kirkbride (NCC) spoke on the application, supporting the general opinion of those present. Cllrs P. Bignell, and D. Harries, also spoke on the application explaining the finer points of Council policy, and warning of the likelihood of an appeal, if the application was turned down.

A formal response to the above application was formulated and accepted by the Parish Council, to be subsequently submitted to the Local Authority.

Meeting was closed at 2100 hrs on Thursday 23rd July 2015.
